

THANK TO OUR REVIEWERS 2015

We thank most sincerely the outstanding personalities listed below for their contribution as Reviewers of the manuscripts (more than 940 from all over the world) submitted during 2015. They joined the members of the Editorial Committee in selecting the best manuscripts for publication. Without Reviewers' expertise, we would not have succeeded to increase the quality of the journal and its Thomson-Reuters Impact Factor, which has reached 2.202, and we would not have obtained the Elsevier Scopus Journal Excellence Award Romania 2015.

This list has been also posted on the journal website, www.jgld.ro.
